

# Superior Court of California, County of Monterey Wireless Access: Mac OS X

---

The court provides a free Internet access point or "hot spot" for the benefit of the Public (during normal business hours) that have portable computers capable of receiving wireless signals. This will allow users to access the Internet from their laptop computers when sitting within range of an access point at all of the Court Facilities except Juvenile and Annex. The following is a step by step instructional on how to connect to the wireless network using a Mac.

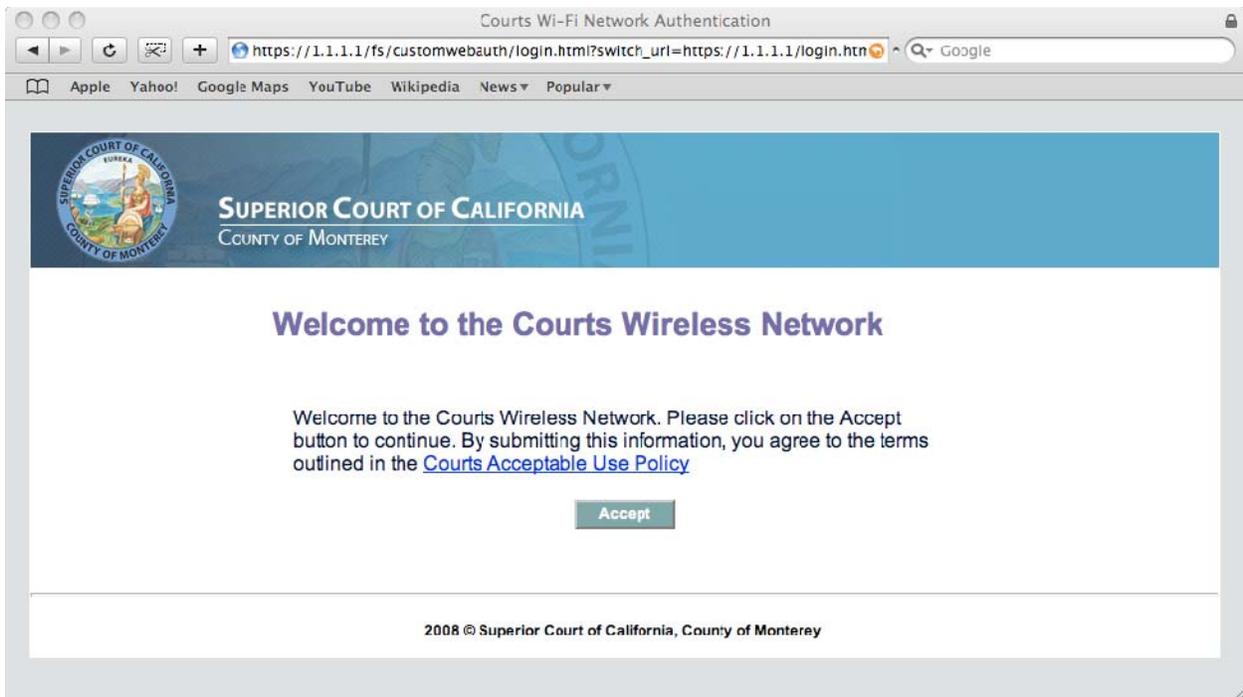

Go to the **AirPort Status** menubar icon and select **Court-Guests**.

Once connected open up *Safari* (or your preferred web browser). You may be prompted about an unidentified certificate. This is expected, Please click the ***Continue*** button.

Your browser will be redirected to the *Courts Wi-Fi Authentication* page. Read through our *Acceptable Use Policy* and then click on the ***Accept*** button. The same form has been included in these instructions as well.

We took the liberty of redirecting you to our public site. Have a look, it's very nice and we worked very hard on it. You can now hit your Home button and your normal homepage will come up. Have a great day and surf responsibly!
