RE: Monterey County Superior Court 2020-2023 Strategic Plan

We are pleased to present the Monterey County Superior Court 2020-2023 Strategic Plan. The Strategic Plan represents the Court's continued commitment to serving Monterey County in a manner that promotes trust and confidence in the legal system by providing fair, equal, and open access to justice.

This Strategic Plan was developed over a span of many months and includes information from surveys solicited from our community partners, staff, and the public. It also incorporates national, state and local trends. All judges and commissioners from the Monterey County Superior Court met over several days to review relevant information and to provide input and feedback. The result of these efforts is a plan that will serve as the foundation for providing enhanced services to our community.

The Strategic Plan aligns with statewide goals as outlined by the Judicial Council of California, including:

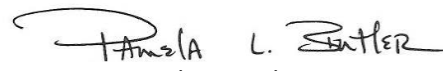

- Access, Fairness and Diversity;
- Independence and Accountability;
- Modernization and Management of Administration;
- Quality of Justice and Service to the Public;
- Education for Branchwide Professional Excellence; and
- Branchwide Infrastructure for Service Excellence.

In the coming months, the Monterey County Superior Court will be developing an Operational Plan to move forward within these focus areas as we emerge from the COVID-19 emergency. The Court will update the plan regularly and will review it annually to ensure that objectives are achieved, and emerging opportunities are identified.

2020 – 2023 Strategic Plan

May 22, 2020

Section 1: Overview

The Superior Court of Monterey County embarked on a strategic planning process in the spring of 2020 pursuant to California Rules of Court 10.603(c)(9), which requires California Courts to prepare a long-range strategic plan with input from the community and consistent with the plan and policies of the Judicial Council of California. The process included surveying external partners and the community as well as judicial officers and court employees. The survey results were used to help guide and shape the future direction and priorities of the Court.

The Court's bench and Court Executive Officer developed this Strategic Plan in April 2020 with consulting and facilitation assistance from Dr. Brenda J. Wagenknecht-Ivey, CEO of PRAXIS Consulting, Inc. The process, conducted with the assistance of video remote technology in two planning sessions due to the COVID-19 pandemic, included:

1. Re-affirming the Court's mission, vision, and values;
2. Analyzing external and internal trends data and identifying likely future implications;
3. Completing an organizational assessment per the 2020 strategic planning survey results; and
4. Developing long-range goals and strategies (i.e., objectives) for making improvements in the coming years.

The process also included identifying strategic initiatives the Court will work on in the first year of implementation. The Court's annual strategic projects will be/are listed in an Operational Plan, which is a companion document to the Strategic Plan. Please contact the Court for more information.

Section 2: Mission, Vision, and Core Values

Below are the Court's mission, vision, and core values.

Mission, Vision, and Core Values

March 10, 2018

It is the mission of the Monterey County Superior Court to serve the public in a respectful, courteous and efficient manner, promoting trust and confidence in the legal system by providing fair, equal and open access to justice.

Vision of the Monterey County Superior Court

Through our collective efforts, the Monterey County Superior Court will become a model and recognized leader among California Courts dedicated to providing improved access to justice through the development, growth, participation and productivity of our workforce and by utilizing innovative technologies to enhance court services to the public.

VALUES of the Monterey County Superior Court

We agree that the decisions we make and the directions we take will be consistent with the following values.

1. Promote and Inspire Public Confidence
2. Improve Public Access to Justice
3. Improve Quality of Service
4. Make Decisions Based on Data
5. Improve Efficiency and Accountability to Drive to Resolution
6. Reflect Independence and Fairness in All Proceedings

Section 3: Trends Analysis

The trends analysis encompassed reviewing external trends – including social, demographic, economic, policy/political, technological, and justice system trends. Internal trends included case filings, program, fiscal, and human resource trends. Below are possible long-term implications for the Court.

1. Population Diversity. The County’s population is increasingly diverse. The Court must be able to meet the needs of an increasingly diverse population and to provide culturally responsive and appropriate services.
2. Accessibility. The Court must strive to enhance geographic, technological, and physical access to the Court. Additionally, the Court will need to reduce access barriers such as cost and language. The Court will likely experience increasing numbers of self-represented and non English speaking litigants. Providing procedural and language assistance will be necessary. It will be important for the Court to be more user-friendly and understandable in the future.
3. Court Services and Programs. The needs of court users are ever-changing and increasing. The Court will need to continue to offer programs and services to meet those changing needs. To avoid mission creep, this also will require enhanced collaboration with justice system and community partners/providers. Community treatment alternatives (e.g., mental health, substance abuse) need to be enhanced.
4. Flexibility and Nimbleness. The Court’s caseload fluctuates. Some filings are increasing while others are decreasing. To respond effectively to high workloads and caseloads, the Court may need to re-allocate resources – including judicial officers and staff – to avoid backlogs and delays. Agility and the ability to adapt quickly to changing circumstances will be increasingly important in the years ahead.
5. Court Technology. Technological innovations and advances are commonplace; they are emerging and evolving at a rapid pace. The Court must continue to invest in its technological infrastructure and use advanced technologies to enhance access, allow court users to conduct business remotely, improve communication, and conduct virtual conferences and hearings. The Court also must guard against cyber threats and attacks.
6. Court Facilities. Monterey County is the 17th largest county (land mass) in California. Significant improvements are needed to the Court’s facilities throughout the county. Some facilities need to be better maintained and the space optimized. Other facilities need to be vacated; the Court is moving towards developing new facilities. Additionally, new facilities are being opened in other parts of the county to enhance access. All facilities must have adequate security, fostering a safe and secure environment for all. Finally, court facilities must be environmentally friendly and sensitive (e.g., energy efficient, recycling, water efficient, etc.)
7. Competent and Diverse Workforce. Recruiting and retaining a diverse and qualified workforce will continue to be a high priority for the Court. The Court must modernize its human resource practices and promote an engaging and satisfying work environment.

Training and education, professional development, career advancement opportunities, and succession planning will be vitally important in the future.

8. Funding. Although funding has stabilized in recent years, fiscal challenges persist. Considering the COVID-19 pandemic and likely economic fallout (the severity of which is yet to be determined and felt), new funding challenges are expected in the future. The Court must prepare now for possible cutbacks; contingency plans are needed. Finally, less revenue will be collected from fines and fees.

Section 4: Organizational Assessment – Summary of Strategic Planning Surveys

The strategic planning surveys were administered in February and March 2020. The external partner/community surveys were administered by the Court. The survey of judicial officers and employees was administered by Dr. Brenda Wagenknecht-Ivey.
